Response to referee comments: <Journal> Submission <Submission-ID>

"<Paper title>"

Wenhao Dong, <other coauthors>

October 30, 2026

We thank the referee for their constructive review. We agree with every point raised and have implemented the recommended modifications, as described below. The referee's comments and changes in the manuscript are reproduced in *italics* and blue for convenience, respectively.

General comments from the referee:
<Comment details; may be multi-paragraph>

Responses to the referee's comments

1. *<Comment, first paragraph.>*

   <Optional second paragraph.>

Authors' response: We thank the referee for... <Just an example, not necessarily always starting with this>.

<Revised manuscript text.>

2. *<Comment with dot points:>*

   - *<First point.>*
   - *<Second point.>*

Authors' response: <Response to the points above.>

<Revised manuscript text.>

3. *<Comment.>*

Authors' response: Agreed...

- <Summary of a change.>

4. *<Comment.>*

Authors' response: <Response.>

Minor revision comments

5. <*Comment.*>

Authors' response: <Response.>

6. <*Comment.*>

Authors' response: Agreed...

<Revised manuscript text.>

7. <*Comment.*>

Authors' response: Agreed.

<Revised manuscript text.>

Responses to the Statistics Editor's comments <depending on the journal>

8. <*Comment.*>

Authors' response: <Response.>

<Revised manuscript text.>

In closing, we thank the referee for their insightful and constructive feedback, which has considerably improved the completeness of the manuscript.
